FIREFIGHTER/OPERATOR

(Competitive Class)

DISTINGUISHING FEATURES OF THE CLASS

The class of Firefighter/Operator comprises entrance level positions in the fire suppression division of the fire department. Employees of this class receive training in and perform firefighting and other tasks such as controlling and extinguishing fires, operating fire equipment, performing rescue work, administering emergency medical care, driving fire apparatus, and maintaining fire department equipment and vehicles. Firefighter/Operators respond to all emergency calls and provide first aid and emergency medical care to the sick or injured at the scene. Employees of this class receive specific instructions for most duties and are directly supervised by a Fire Captain. This class ranks immediately below that of Fire Captain.

EXAMPLES OF WORK

Examples listed below are illustrative only. They are not intended to include all duties which may be assigned, neither are they intended to exclude other duties which may be logical assignments to this class.

Responds to all fire and medical emergency calls received by the department. Trains for, performs, and maintains proficiency in fire suppression and safety. Drives or rides in fire apparatus or emergency vehicle to and from the scene. Communicates with dispatcher and fire vehicles using two-way radio. Ensures a timely response to the emergency scene by reporting address and details to officer in charge, locating the address on a map, evaluating navigational problems and taking shortest route available. Observes the burning structure and fireground to determine the most efficient method of attack. Evaluates the potential effects of environmental conditions on the fire. Determines if a position is safe for firefighting crews, positions apparatus, and determines the length and number of hose lines necessary for fire suppression. Dismounts apparatus, pulls hose from bed and connects hose lines to hydrant or other water supply source. Primes and operates pumper to supply adequate pressure to the nozzle. Operates and controls portable or fixed water streams in order to extinguish fire and protect exposures. Inspects charged hose line for kinks and repairs or replaces burst hose sections. Performs automatic sprinkler and standpipe system operations. Operates appropriate class of fire extinguisher. Observes and responds to changing fireground conditions, notifying officer in charge. Maintains awareness of other firefighters' efforts and assists them to ensure a safe and coordinated performance.

Notifies occupants or neighbors to vacate premises due to safety concerns. Maintains limited crowd and traffic control at the scene until police arrive. Performs search and rescue operations. Moves heavy objects, cuts open vehicles or machinery, and removes electrical wires in order to remove people from life-threatening situations. Carries or assists victims away from danger and examines them for signs of injury and medical alert tag. Administers basic or advanced first aid

as well as emergency medical care to victims at the scene or on the way to the hospital. Notifies dispatcher of need for additional medical help.

Performs salvage and overhaul. Reads and recognizes HAZMAT symbols. Acts to contain hazardous material spill or control spread under direction of superior officer. Locates and operates shut-off valves for gas, electricity, oil, and water in buildings to reduce hazard.

Recognizes signs of arson, observes spectators for suspicious behavior, notifies officer in charge, and preserves evidence. Secures burned building to protect from weather and vandalism. Extinguishes or controls grass and shrub fires. Conducts prevention inspections of residences in the area.

Cleans, dries, tests, inspects, and properly secures any assigned firefighting tools or equipment. Tests communication equipment and performs daily radio checks. Performs periodic tests of apparatus pumping capacity and pressure. Maintains inventory of tools and equipment on apparatus. Inspects hydrants for defects and performs routine maintenance, flushing periodically as needed. Provides for the proper maintenance and upkeep of the station and grounds.

Participates in training and drills, and learns and maintains proficiency in department equipment, tools, and the principles of fire behavior. Participates in critical evaluations of departmental response to each fire. Provides occasional informal training for new employees. Practices with apparatus and equipment under supervision. Studies direct routes, location of streets, water mains and hydrants in response area. Studies laws and documents related to emergency medical services. Ensures that accurate emergency medical services records are maintained. Completes assigned forms and records. Writes reports, and creates and writes preplans. Makes entries in daily log for the department. Reports to work well-groomed, on-time and in proper attire. Maintains satisfactory interpersonal relationships with other department members. Receives telephone calls, assists visitors and conducts tours at the fire station.

Performs related duties as assigned.

QUALIFICATION REQUIREMENTS

Unless otherwise specified, all requirements must be met by the filing deadline for application for admission to the examination.

Must meet all requirements of the Municipal Fire and Police Civil Service Law, including being a citizen of the United States and of legal age.

After offer of employment, but before beginning work in this class, must pass a physical examination, the selection and administration of which shall be authorized by the Appointing Authority, designed to demonstrate good health and physical fitness sufficient to perform the essential duties of the position, with or without accommodation.

Applicant must possess one of the following: high school diploma, high school equivalency certificate, high school transcript, affidavit from the issuing high school, associate's or bachelor's degree, or college transcript, any one of which must indicate that graduation has occurred or a degree awarded. Any Louisiana applicant who presents a home study diploma shall submit necessary documentation indicating Louisiana Board of Elementary and Secondary Education (BESE) approval of the home study curriculum. Non-Louisiana applicants shall be required to present proof of completion of a high school curriculum which has been accredited by the applicant's state, or its state-approved agency. A certification of completion shall not be sufficient to substitute for a diploma or equivalency certificate.

Must have a valid driver's license.

Must not be less than eighteen (18) years of age.

Prior to confirmation in the class of Firefighter/Operator, must obtain Firefighter I and II certifications as measured by NFPA standards.

Prior to confirmation in the class of Firefighter/Operator, must become Louisiana State Certified and Nationally Registered as an Emergency Medical Technician (EMT) or higher.

Must maintain current Louisiana State Certification and remain Nationally Registered as an Emergency Medical Technician (EMT) Basic or higher while working in the class of Firefighter/Operator.

Revision Dates: 11-07-18, 09-14-26

FIRE CAPTAIN

(Promotional Class)

DISTINGUISHING FEATURES OF THE CLASS

This class encompasses responsible supervisory positions, the primary duties of which involve the supervision of the operations of a fire station, including the supervision of firefighting personnel, apparatus and equipment on an assigned shift. Employees of this class respond to emergency calls, assume command at the scene of an emergency in the absence of a superior officer, and assist in the training of subordinate employees. Fire Captains have the authority to work independently in most areas, performing special tasks with only general instructions. Employees of this class report to and have work reviewed by the Deputy Fire Chief. Fire Captains rank directly below the class of Deputy Fire Chief.

EXAMPLES OF WORK

Examples listed below are illustrative only. They are not intended to include all duties which may be assigned, neither are they intended to exclude other duties which may be logical assignments to this class.

Manages all assigned areas and stations on one shift. Responds to fire alarms from dispatcher, records pertinent information, and proceeds with en route size-up. Performs size-up of an emergency scene, including determining the nature and extent of fire, condition of the building, danger to adjacent buildings, and source of water supply. Directs emergency scene operations and serves as fire safety officer until relieved by superior officer. Directs the positioning of apparatus at the fireground. Supervises subordinate employees at the scene of an emergency in fighting fire, handling hazardous materials, rescuing persons from life threatening situations, providing emergency medical assistance, and salvage and overhaul. Personally acts as part of the fire attack team. Observes and responds to changes in fireground conditions while directing firefighting operations. Maintains communications between the fire scene and other authorized personnel. Provides for the needs of firefighters and other emergency personnel at the scene of an incident. Briefs incoming captain on all pertinent activities that occurred or will occur on the upcoming shift.

Provides emergency medical care to the sick or injured at the emergency scene. Performs emergency medical services. Secures the fire scene to prevent removal or damage of evidence of suspected arson. Investigates the causes, origins, and circumstances of structure and vehicle fires to determine whether the fire was the result of natural causes, carelessness, or arson. Assists arson investigation personnel and acts as liaison with law enforcement. Takes photographs of the building to provide an accurate extent of damage. Collects information concerning the burned building, the fire structure exterior, and the surrounding area. Completes preliminary fire investigation reports. Requests expert assistance if needed when complex

equipment or related difficulties are involved. Takes extensive notes concerning each phase of the investigation. Testifies in court when required.

Issues orders and manages tasks outside of normal working practice. Provides assistance to subordinates in technical areas of work. Writes reports, and reviews reports written by subordinates. Approves leave. Creates and reviews preplans. Inspects the appearance of assigned equipment and personnel.

Evaluates the efficiency of response units following emergency incidents. Recommends management policies, goals, and objectives for the department. Participates in the research and planning for programs and activities of the department. Monitors and evaluates local conditions which may become fire or safety hazards. Performs pre-fire planning inspections by visiting businesses, schools, and places of public assembly located in an assigned area in order to become familiar with all features which might become important in a fire or emergency situation. Inspects exterior and interior of buildings ensuring all aspects are in compliance with fire codes. Inspects commercial businesses and recommends corrections for unsafe practices and conditions. Inspects schools and other educational facilities for fire protection purposes, including conducting fire drills. Reports fire hazards or safety violations to the appropriate authority.

Oversees inspection of fire apparatus for proper placement and maintenance of tools, equipment, and appliances. Inspects station house, buildings, and facilities to ensure compliance with departmental maintenance standards. Reports and receives reports about any problems with fire department property and equipment for the purposes of repair and maintenance. Provides for repair and maintenance of apparatus and equipment.

Provides for the maintenance of department records such as record of activity, inventory records, or any others which may be required. Completes assigned forms and records, such as maintenance records, incident reports, and preliminary investigation reports. Prepares LFIRS reports. Completes a report of each fire inspection.

Performs related duties as assigned.

QUALIFICATION REQUIREMENTS

Unless otherwise specified, all requirements listed below must be met by the filing deadline for application for admission to the examination.

Must meet all requirements of the Municipal Fire and Police Civil Service Law, including being a citizen of the United States and of legal age.

After offer of promotion, but before beginning work in this class, must pass a physical examination, the selection and administration of which shall be authorized by the Appointing Authority, designed to demonstrate good health and physical fitness sufficient to perform the essential duties of the position, with or without accommodation.

Must possess a valid driver's license.

Must be a regular and permanent employee in the class of Firefighter/Operator with at least five (5) years of total service with West Baton Rouge Fire Protection District No. 1. Must have at least two (2) continuous and uninterrupted years of service in the permanent class of Firefighter/Operator immediately preceding closing date for application to the board.

Prior to the closing date for application to the board, must have obtained certifications in Hazardous Materials: Awareness and Operations, Firefighter I and II, Apparatus Driver-Operator Pumper, Fire Instructor I, Fire Inspector I and Fire Officer I according to National Fire Protection Association (NFPA) standards, and have been tested in accordance with IFSAC or ProBoard. Must have current Louisiana State Bureau of EMS license and be nationally registered as an Emergency Medical Technician (EMT) basic or higher.

Must maintain current Louisiana State Certification and remain nationally registered as an Emergency Medical Technician (EMT) Basic or higher while working in the class of Fire Captain.

Must wait eighteen (18) months before testing in the class of Fire Captain if rejected from working test period for any reason.

Fire Captain WZ

Original Adoption: 08-16-16

Revision Dates: 08-01-22, 12-15-25

DEPUTY FIRE CHIEF

(Promotional Class)

DISTINGUISHING FEATURES OF THE CLASS

This class encompasses a highly responsible administrative and supervisory fire department position, the primary duty of which is assisting the Fire Chief in planning, organizing, and overseeing all operations of the fire department. The employee of this class performs the duties of the Fire Chief in the Chief's absence and supervises all subordinate department employees. The Deputy Fire Chief provides for regular employee training at all levels within the department. The employee of this class also supervises the production of fire records and reports, and assists with the financial management of the department. The Deputy Fire Chief has the authority to work independently and has work reviewed by the Fire Chief. The class of Deputy Fire Chief ranks directly below the class of Fire Chief.

EXAMPLES OF WORK

Examples listed below are illustrative only. They are not intended to include all duties which may be assigned, neither are they intended to exclude other duties which may be logical assignments to this class.

Assists the Fire Chief in managing all operations of the department and performs the duties of the Fire Chief in his absence. Participates in decisions regarding departmental organization, including decisions concerning the number and distribution of operating units. Evaluates the effectiveness of the department by observing department operations. Takes appropriate action to correct or improve problem areas. Plans and organizes departmental operations involving personnel, equipment and apparatus.

Develops a training program for the department, evaluates training needs, and ensures that such program is properly staffed and supplied with the appropriate resources. Provides for employee training in the classroom or conducts drills and evolutions in basic firefighting, rescue operations, safety, EMS, hazardous materials operations, driving, the use of fire apparatus, equipment, tools, breathing apparatus and any other subject areas as required. Provides technical assistance and on-the-job training for new employees.

Supervises department employees by assigning work schedules or duty areas, and approving leave. Inspects the appearance of all assigned personnel and equipment. Holds meetings with subordinates to receive and review reports, and provide information. Oversees and evaluates the work performance of subordinates, and discusses such

performance with the employee and Fire Chief. Maintains discipline and harmony in the department by resolving employee complaints and grievances, counseling employees who are

experiencing work problems and recommending disciplinary action when needed. Delegates authority to subordinates for the more effective operation of the department.

Responds to all major alarms dispatched. Directs activities and supervises the fire company at the scene of a fire or other emergency, performing duties such as overseeing all safety procedures, size-up, forcible entry, ventilation, nozzle and hose handling, pump operations, use of water supplies, protection of exposures, salvage, overhaul and rescue operations. Personally acts as part of the fire attack team when needed. Participates in handling emergencies involving hazardous materials. Coordinates and maintains communications between the fire scene and law enforcement or other authorized personnel, relaying necessary information. Provides for the needs of firefighting and other emergency personnel at the scene. Investigates the causes, origins, and circumstances of fires occurring within the jurisdiction. Collects and labels evidence of suspected arson. Secures the fire scene to protect evidence and assists arson investigation personnel.

Examines the exterior, interior, and surrounding area of the fire structure to determine the point of origin. Investigates vehicle fires to determine the point of origin. Takes photographs of the interior and exterior of the building to provide an accurate record of the extent of involvement and damage.

Collects information for pre-fire planning by visiting public buildings, and inspecting or directing the inspection of buildings to determine the existence of potential fire hazards. Compiles and organizes data needed for reports. Writes reports and personally completes any forms and records required, including payroll records. Supervises the preparation of LFIRS reports. Completes fire inspection reports. Assists the Fire Chief by reviewing and responding to correspondence addressed to the fire department.

Assists in the preparation of the departmental operating budget by gathering, compiling and organizing needed data. Participates in accounting for the money and assets of the department. Writes requests for grants or other special funds to aid in the operation of the fire service. Meets with sales representatives to review products. Authorizes expenditures of funds, and purchases equipment and supplies, keeping such purchases within the established budget.

Oversees the general care and maintenance of department vehicles, fire fighting apparatus, stations, grounds, and communications or other specialized equipment and arranges for repair of such, as needed. Inspects equipment after repairs to check that repairs were properly accomplished. Personally tests or directs the testing of assigned equipment. Orders, distributes and maintains inventory of equipment and supplies.

Participates in the personnel recruitment and selection program by interviewing and evaluating prospective employees. Participates in the research and planning for programs and activities of the department. Recommends departmental goals, objectives, and policies for consideration by the Fire Chief. Studies new laws, regulations or court rulings relating to fire department operations to determine if changes in department procedures are needed. Keeps informed on

modern fire fighting and administrative methods and local trends that may affect the fire service. Recommends changes in department operations that will help obtain favorable ISO/PIAL ratings. Monitors and evaluates local conditions which may become fire or safety hazards. Investigates accidents and complaints involving the department, determines the cause, and takes action to correct the problem or to avoid future accidents.

Informs the public about fire department operations by participating in and overseeing talks, demonstrations, the distribution of literature and department tours. Answers questions from the public about the operation of the department or any related areas of emergency services. Receives complaints from the public on hazards or possible violations of fire codes. Assists the fire chief in releasing information to the news media. Participates in conferences, conventions and other educational meetings.

Performs related duties as assigned.

QUALIFICATION REQUIREMENTS

Unless otherwise specified, all requirements listed below must be met by the filing deadline for application for admission to the examination.

Must meet all requirements of the Municipal Fire and Police Civil Service Law, including being a citizen of the United States, and of legal age.

After offer of promotion, but before beginning work in this class, must pass a physical examination, the selection and administration of which shall be authorized by the Appointing Authority, designed to demonstrate good health and physical fitness sufficient to perform the essential duties of the position, with or without accommodation.

Must possess a valid driver's license.

Must be a regular and permanent employee in the class of Fire Captain, with at least two (2) years of continuous and uninterrupted service with West Baton Rouge Parish Fire District No. 1 in that permanent position immediately preceding closing date for application to the board.

Prior to the closing date for application to the board, must have obtained certifications in Hazardous Materials: Awareness and Operations, Firefighter I and II, Apparatus Driver-Operator Pumper, Fire Instructor I and II, Fire Inspector I, Fire Investigator I, Fire Officer I and II according to National Fire Protection Associations (NFPA) standards, and have been tested in accordance with IFSAC or ProBoard. Must have current Louisiana State Bureau of EMS license and be nationally registered as an Emergency Medical Technician (EMT) basic or higher.

Must maintain current Louisiana State Certification and remain nationally registered as an Emergency Medical Technician (EMT) Basic or higher while working in the class of Deputy Fire Chief.

Must wait eighteen (18) months before testing in the class of Deputy Fire Chief if rejected from working test period for any reason.

CHIEF OF TRAINING AND SAFETY

(Competitive Class)

DISTINGUISHING FEATURES OF THE CLASS

This class encompasses a highly responsible administrative position, the primary duty of which is the oversight and management of comprehensive training and safety programs for the fire department. The employee of this class develops, implements and manages a training program, provides for training at all levels within the department and personally conducts training classes and drills. The Chief of Training and Safety also develops and oversees a safety program for all areas of departmental operations, in order to reduce or eliminate occupational risks to employees. The employee of this class provides for the production and maintenance of assigned records and orders supplies and equipment related to training and safety. The Chief of Training and Safety has no direct supervision over fire department personnel; however, the incumbent exercises functional supervision over departmental employees with regard to safety procedures at the scene of a fire or emergency and during training. The employee of this class works independently, reporting to and having work reviewed by the Fire Chief.

EXAMPLES OF WORK

Examples listed below are illustrative only. They are not intended to include all duties which may be assigned, neither are they intended to exclude other duties which may be logical assignments to this class.

Coordinates and oversees all training activities within the fire department. Develops a training program for the department and sees that such program is properly staffed and supplied with training resources. Provides for regular employee training at all levels within the department by evaluating training needs and providing department training or outside training to meet the needs. Schedules training for all department employees, as assigned by the fire chief. Participates in the research of technical data, including local fire reports, statistics, bulletins, and specifications for the purpose of integrating such material into the training program. Responds to fires to make notes and take photographs for use in training. Maintains a library of training materials for use by department personnel.

Exercises functional supervision and maintains discipline among department personnel during training activities. Personally trains employees by conducting classroom training in areas such as public relations, fire service laws, communications, fire prevention, pre-fire planning, fire investigation, supervision, emergency medical services, hazardous materials and safety. Conducts drills and evolutions, or uses other appropriate methods to train employees in fire suppression, pump operations, nozzle and hose handling, fire extinguishers, forcible entry, fire streams, ladders, ropes, ventilation, salvage, overhaul, and any other areas as assigned. Personally provides on-the-job training for new employees and volunteer firefighters.

Develops lesson plans and assembles training materials for training classes. Prepares, administers and grades written tests to rate success in training. Evaluates the effectiveness of training to determine the need for additional training or for changes in the training program by analyzing the results of training tests and reviewing the response of personnel at the emergency scene.

Holds meetings with department members in order to receive and provide information related to training and safety. Makes recommendations for improvements in the training program. Keeps informed on modern fire fighting methods and administrative practices; attends conferences, conventions and other educational meetings. Obtains training certifications as directed by the Fire Chief and/or as required by departmental policy. Acts as a consultant for volunteer fire departments providing them with technical expertise, assistance, and cooperation in training and/or firefighting efforts, when required.

Develops a safety program for the department and sees that such program is properly staffed and supplied with training resources. Conducts or directs research studies to identify hazards and evaluate the loss-producing potential of a given operation. Identifies and appraises conditions which could produce accidents and financial losses. Develops and recommends accident and loss control systems and programs for incorporation into operational policies to reduce or eliminate occupational injuries, illnesses, deaths, and financial losses. Devises methods to evaluate the safety program; conducts evaluations of the program and makes recommendations for improvements. Performs all duties of Fire Department Safety Officer.

Coordinates the safety activities of departmental supervisors and fire companies to ensure implementation of established safety practices throughout the department. Demonstrates safety equipment and practices for fire service personnel and observes employees to confirm the proper use of prescribed safety equipment. Inspects specified areas for fire service equipment, safety and first-aid supplies, and observes working conditions of the department to ensure compliance with occupational safety and health regulations. Inspects apparatus, equipment and machinery for accident prevention devices and compliance with safety regulations. Evaluates potential extent of injuries resulting from accidents. Investigates all accidents involving department equipment or personnel, determines the cause and makes recommendations on procedure to avoid future accidents. Prepares accident and injury reports for review by administrative personnel. Compiles, analyzes, and interprets statistical data related to exposure factors concerning occupational illnesses and accidents.

Responds to major incident alarms for which the department is answerable; personally acts as part of the fire attack team. Observes and participates in emergency scene operations including size-up, search and rescue, fire extinguishment and providing emergency medical services. Takes charge of all safety procedures at the scene of a fire or emergency to ensure compliance with departmental standards. Oversees and participates in handling emergencies involving hazardous materials. Investigates the causes of and circumstances surrounding fires suspected to be the result of carelessness or arson; provides for the security of the fire scene to prevent the removal of or damage to evidence of suspected arson. Maintains communications between the fire scene and other authorized personnel, calls for assistance when needed, and relays necessary information on operations at the emergency scene. Provides for the needs of firefighters and other emergency responders; acts as coordinator between firefighting and law enforcement personnel at the scene of a fire or emergency.

Provides for the maintenance of all records and reports associated with training and safety; reviews training reports and maintains PIAL records for the department. Orders supplies and equipment related to training and safety, and disburses such to department personnel, as required. Makes recommendations on major purchases for the department.

Participates in the research and planning for programs and activities of the department. Sets management policies, goals and objectives related to training and safety programs. Recommends changes in department operations that will help the district to obtain favorable ISO ratings. Participates in developing a personnel recruitment and selection program. Interviews applicants, makes recommendations for hiring and arranges agility testing for newly hired employees. Responds to inquiries about the operation of the fire department or any related areas of emergency services. Informs the public about fire department work by overseeing and participating in lectures, demonstrations or tours of department facilities and by distributing literature to schools, business owners or any concerned citizens.

Performs any related duties assigned.

QUALIFICATION REQUIREMENTS

Unless otherwise specified, all requirements listed below must be met by the filing deadline for application for admission to the test.

Must meet all requirements of the Municipal Fire and Police Civil Service Law, including being a citizen of the United States, and of legal age.

Applicant must possess one of the following: high school diploma, high school equivalency certificate, high school transcript, affidavit from the issuing high school, associate's or bachelor's degree, or college transcript, any one of which must indicate that graduation has occurred, or a degree awarded. Any Louisiana applicant who presents a home study diploma shall submit necessary documentation indicating Louisiana Board of Elementary and Secondary Education (BESE) approval of the home study curriculum. Non-Louisiana applicants shall be required to present proof of a high school curriculum which has been accredited by the applicant's state approved agency. A certification of completion shall not be sufficient to substitute for a diploma or equivalency certificate.

Must possess a valid driver's license.

Must have not less than five (5) years of full-time work experience with a paid fire department in fire suppression and/or fire service training.

Prior to the closing date for application to the board, must possess the following certifications:

- * Fire Instructor II and Fire Officer II in accordance with NFPA standards (IFSAC or ProBoard)
- * Emergency Medical Technician – Basic or higher

After offer of employment, but before beginning work in this class, must pass a physical examination, the selection and administration of which shall be authorized by the Appointing Authority, designed to demonstrate good health and physical fitness sufficient to perform the essential duties of the position, with or without accommodation.

Chief of Training and Safety WZ Original Adoption: 09-25-23 Revision Dates:

CHIEF OF FIRE PREVENTION

(Competitive Class)

DISTINGUISHING FEATURES OF THE CLASS

This class encompasses a responsible administrative and supervisory position, the primary duties of which are the organization and direction of the department's Fire Prevention Division, responsible for fire inspections, fire investigations, and public fire education. The Chief of Fire Prevention investigates all fires to determine the cause and origin and to collect evidence of possible arson. Incumbents in this class educate the public on fire hazards and safety, and maintain records and reports required to document the activity of the Fire Prevention Division. The Chief of Fire Prevention works independently in most areas, reporting to and having work reviewed by the Fire Chief.

EXAMPLES OF WORK

Examples listed below are illustrative only. They are not intended to include all duties which may be assigned, neither are they intended to exclude other duties which may be logical assignments to this class.

Oversees and directs the daily operations of the Fire Prevention Division; provides for fire inspections, fire investigations and public fire education. Recommends and sets management policies, goals, and objectives relating to fire prevention. Conducts research and oversees the planning for programs and activities of the division. Inspects division operations, evaluates the effectiveness of such operations, and takes appropriate action to correct or improve problem areas. Monitors and evaluates local conditions which may become fire or safety hazards. Recommends changes in department operations that will help the district obtain favorable ISO ratings. Evaluates new laws, regulations, ordinances, and court rulings relating to fire prevention operations to determine if changes in division policies and procedures are needed.

Oversees and participates in building inspections; reviews previous inspection reports in order to become familiar with potential hazards. Reviews building plans and specifications, as well as sections of the applicable codes for the particular type of occupancy. Contacts the owner/occupant upon arrival at inspection site, obtains permission for the inspection, and gives a briefing detailing the inspection procedure. Inspects the exterior and interior of the building, making notes of any areas barred from inspection and collects information to be used in determining fire safety and compliance with applicable fire codes. Determines whether structures meet fire resistance requirements for their construction type. Oversees and participates in the inspection of fixed fire extinguishing systems, portable fire extinguishers, standpipe systems, fire detection/alarm systems, electrical equipment, heating/air-conditioning equipment and sites for the storage of flammable and hazardous materials. Assesses the occupant load of inspected buildings, and evaluates buildings to determine whether they have suffered structural abuse. Ensures building conditions are documented at the time of inspection

by taking photographs. Discusses inspection findings with the building owner or manager, provides copies of all required documents, and makes recommendations for the correction of fire hazards. Completes a report of each fire inspection, recording all necessary information about the building, presenting facts and evidence collected during the inspection, and outlining conclusions reached and recommendations made as a result of findings. Enforces fire prevention codes and ordinances by re-inspecting buildings where violations of fire codes occurred and, if necessary, issues citations, assesses fines, and serves court summonses or stop work orders for non-compliance with fire codes. Prepares information and evidence from inspections for use in a court proceeding; testifies in court or serves as an advisor to the prosecutor.

Oversees and participates in fire investigations; restricts access to the fire scene to prevent removal or damage of evidence. Examines the exterior of the fire structure and checks the surrounding area for unusual debris such as evidence of acceleration materials, tools that may have been used for illegal entry, or valuables hidden outside the structure. Identifies and preserves for evidence any tracks, footprints, or related markings. Conducts interviews with firefighters and/or witnesses regarding circumstances that may have been noted before or during the fire such as location, size and path of the fire, flame and smoke colors or suspicious spectators. Examines interior of fire structure and locates low burn to determine the point of origin. Notes the direction of fire travel, contents, finishing materials, depth and severity of charring, scorching, and blistering; looks for indications of accelerant use and reconstructs the fire scene, if needed. Searches for, identifies, and collects evidence using established methods to avoid contamination and protect the chain of custody. Determines the heat source and cause of structure and vehicle fires to determine cause and point of origin. Documents the fire scene by taking extensive notes and photographs; makes sketches or diagrams to provide an accurate record of the locations of evidence and the extent of damage. Uses all observations to determine whether fire was the result of natural causes, carelessness or arson. Completes a fire investigation report outlining the conclusions reached by investigating personnel. Interrogates suspects; secures and executes search and arrest warrants. Communicates with the public prosecutor's office, acts as a liaison with law enforcement.

Develops a fire prevention education curriculum for the department by identifying the most important local fire problems and utilizing information such as incident reports, demographic data and injury information in order to customize the curriculum for the target audience. Determines the content and format of fire safety messages and produces instructional materials, including audio-visual aids, to be used in training programs. Provides information to the public about fire hazards, fire dynamics, human behavior during fires, built-in fire protection and injury prevention. Designs the most appropriate method of presentation and evaluates the effectiveness of the curriculum. Schedules and coordinates tours of fire department facilities for school or civic groups; arranges for guides, instructors, and instructional materials for groups. Assists institutions or companies in developing solutions for fire prevention problems. Conducts fire drills for business, educational, and assembly occupancies; reviews evacuation plans and instructs personnel responsible for assisting with the drill. Receives complaints from the public on hazards or on possible violations of fire codes and processes these complaints following departmental procedures. Oversees fire safety in public assembly occupancies at major events.

Serves as division representative to the news media, releasing information and answering questions concerning fire prevention work. Coordinates the work of the department with related federal, state, and local agencies.

Supervises employees assigned to work exclusively in the Fire Prevention Division. Maintains discipline and exercises functional supervision over classified fire suppression employees when they perform fire prevention tasks. Maintains a reference library on inspection, investigation, and public fire education topics for use by department personnel. Provides on-the-job training for department members, including explaining policies, procedures and rules; assists employees in technical areas of work. Ensures employees assigned to perform fire prevention tasks have the tools and resources necessary to perform their jobs. Inspects or tests any equipment which may be used in fire prevention to ensure proper working order. Evaluates division needs, reviews products with sales representatives and recommends the purchase of equipment for use in the department's fire prevention program. Places orders, maintains inventory and disburses fire prevention supplies and equipment. Assists in the department response to alarms or emergency calls. Supervises the communication between the fire scene and other authorized personnel. Acts as a consultant for volunteer fire departments in surrounding areas, providing them with cooperation in fire prevention efforts or training, as needed.

Establishes policies concerning what information should be included in division records and determines in what form this information should be kept. Reviews incident reports written by fire suppression personnel to determine if further action on the incident should be taken. Writes and submits public service announcements and news releases on fire safety to be used by local newspapers, television and radio stations. Oversees and participates in lectures and demonstrations on fire safety topics for the public. Receives requests for fire prevention records and responds to such in accordance with law and departmental policy. Writes proposed changes to fire prevention codes. Obtains training certifications as directed by the Fire Chief and/or as required by departmental policy. Participates in conferences, conventions, and other educational meetings to keep informed on modern fire prevention methods.

Performs related duties as assigned.

QUALIFICATION REQUIREMENTS

Unless otherwise specified, all requirements listed below must be met by the filing deadline for application for admission to the examination.

Must meet all requirements of the Municipal Fire and Police Civil Service Law, including being a citizen of the United States and of legal age.

Applicant must possess one of the following: high school diploma, high school equivalency certificate, high school transcript, affidavit from the issuing high school, associate's or bachelor's degree, or college transcript, any one of which must indicate that graduation has occurred, or a degree awarded. Any Louisiana applicant who presents a home study diploma shall submit necessary documentation indicating Louisiana Board of Elementary and Secondary Education

(BESE) approval of the home study curriculum. Non-Louisiana applicants shall be required to present proof of a high school curriculum which has been accredited by the applicant's state approved agency. A certification of completion shall not be sufficient to substitute for a diploma or equivalency certificate.

Must possess a valid driver's license.

Must have not less than five (5) years of full-time work experience in positions with primary duties including conducting fire inspections, fire investigations and/or public fire education programs.

Prior to the closing date for application to the board, must possess the following certifications:

- * Fire Inspector II AND Fire Investigator I, in accordance with NFPA standards (IFSAC or ProBoard)
- * POST (Peace Officer Standards and Training) certification

After offer of employment, but before beginning work in this class, must pass a physical examination, the selection and administration of which shall be authorized by the Appointing Authority, designed to demonstrate good health and physical fitness sufficient to perform the essential duties of the position, with or without accommodation.

Chief of Fire Prevention WZ Original Adoption: 09-25-23 Revision Dates:

FIRE AND EMERGENCY MEDICAL SERVICES FIELD TRAINING OFFICER II

(Competitive Class)

DISTINGUISHING FEATURES OF THE CLASS

This class comprises a highly responsible, non-supervisory position in the Emergency Medical Services of the Fire Department. The primary duties of which include assisting the Fire and Emergency Medical Services Field Training Supervisor in monitoring EMS programs, policies, and procedures. The Fire and Emergency Medical Services Field Training Officer II trains medical personnel in the fire department and performs emergency medical services at the scene of an emergency. The employee of this class works with little supervision, reporting to and having work reviewed by the Fire and Emergency Medical Services Field Training Supervisor.

EXAMPLES OF WORK

Examples listed below are illustrative only. They are not intended to include all duties which may be assigned, neither are they intended to exclude other duties which may be logical assignments to this class.

Assists with developing management policies, goals, objectives, and procedures for the Emergency Medical Services division. Plans and organizes departmental operations including equipment, apparatus, and personnel. Develops methods which may be used to evaluate and improve productivity, efficiency, and procedures of departmental programs. Makes recommendations for hiring and develops appropriate interview questions. Recommends policy decisions such as types of equipment needed, placement of equipment, and personnel assignments. Reviews and evaluates emergency medical services and contributions made by the different service elements to determine appropriateness of procedures and to recommend changes in standard operating procedures.

Acts as part of a fire suppression or rescue team and performs pumper operations when not providing emergency medical services at the scene of a fire or emergency. Uses protective breathing apparatus at an emergency scene or in training situations. Uses extrication equipment to free people to administer emergency medical attention. Provides emergency medical care, including administering medication, to the sick or injured at the emergency scene or while in transport to the hospital emergency department using communications and medical equipment provided. Follows triage procedures and obtains a comprehensive drug history on the patient. Drives emergency medical vehicles to and from the scene of a fire or other emergency to provide medical care at the emergency and/or to transfer the injured to a hospital or other emergency care facility. Transports family members of victims to the hospital along with the patient. Provides advanced life support services to patients. Operates and interprets monitors and other equipment, apparatus, or property used to provide emergency medical services. Keeps informed on any specific signs or circumstances under which it is not appropriate and may be harmful to administer a drug to patients. Observes, records, and reports to physician patient's conditions

and reactions to drugs, treatments, and significant incidents. Studies new laws, drug reference literature, precautions, techniques, and pharmacological information relating to emergency medical services with intent to incorporate such into the operations of the department. Participates in operations at mass casualties. Participates in the Incident Command System. Performs emergency medical services at a crime scene involving personal injuries.

Participates in the following operations at the emergency scene: forcible entry, ventilation, nozzle and hose handling, protection of exposures, fire extinguishment, pump operations, use of sprinkler and standpipe systems, salvage, overhaul, CPR, emergency medical services, ladders, search and rescue, use of self-contained breathing apparatus, and use of ropes and knots. Notifies dispatcher to call for emergency medical help when needed.

Assists in developing a training program for the division and sees that such program is properly staffed and supplied with training resources. Personally trains personnel by conducting training in the classroom as an instructor and providing informal or "on-the-job" training for employees. Evaluates the clinical work of candidates for intermediate or paramedic-level emergency medical services. Goes to the emergency scene to observe emergency medical procedures with intent to correct errors or to incorporate needed changes into training program. Works with medical experts and training division personnel to critique field operations.

Personally completes, files, and retrieves all forms, records, and reports as required. Gathers and compiles information for reports and/or departmental planning by reviewing and analyzing data. Writes reports requiring the ability to compose complete sentences, use correct grammar and punctuation, organize ideas in a logical sequence, and related skills. Reviews records and reports completed by subordinates and periodically inspects systems and facilities for keeping the records. Provides for and ensures that accurate Emergency Medical Services records are completed and maintained.

Promotes a positive public image of the work of the department in the daily performance of duties. Conducts tours of department facilities for school or civic groups. Acts as a consultant for other emergency medical services in surrounding areas, providing them with technical expertise, assistance, and cooperation in training and/or emergency medical efforts when required. Serves as a liaison between fire service medical operations and area hospitals, answering questions or performing any related duties required. Calms distraught family members of the victim during an emergency medical situation. Communicates with other medical professionals and the public, either in person or on the telephone, to take and deal with complaints, answer questions, and discuss needed changes in division operations or training. Participates in the information gathering process for improved public relations programs by organizing and analyzing data from polls, surveys, or information gathering devices and recommending needed policy statements or policy changes based on resulting data. Participates in the fire public education program of the department by working with local business leaders to provide fire safety education to employees.

Participates in the general care, maintenance, and use of departmental equipment including motor driven vehicles, stations and grounds, and communications equipment. Arranges for repairs and maintenance of facilities, equipment, or operating systems, or assigns such to qualified department personnel. Inspects equipment, property, or operating systems after repairs to see that repairs were properly accomplished.

Participates in the accounting for the money and assets of the Emergency Medical Services division. Participates in the purchase of equipment and supplies for the Emergency Medical Services division. Prepares requisitions for equipment and supplies and sees that equipment and supplies are ordered and inspected.

Directs subordinate employees by outlining responsibilities and duties to set expectations for performance, setting task priorities, and setting long term goals for work to be completed. Provides tools and resources necessary for job performance. Inspects the appearance of equipment and personnel. Holds meetings to receive reports and distribute information or discuss work problems. Evaluates work performance of subordinates and writes employee evaluation reports. Discusses work performance with subordinates and superiors. Counsels employees who are experiencing work problems. Maintains discipline by conducting corrective interviews and recommending disciplinary action.

Performs related duties as assigned.

QUALIFICATION REQUIREMENTS

Unless otherwise specified, all requirements listed below must be met by the filing deadline for application for admission to the examination.

Must meet all requirements of the Municipal Fire and Police Civil Service Law, including being a citizen of the United States and of legal age.

Must possess a valid driver's license.

After offer of employment, but before beginning work in this class, must pass a physical examination, the selection and administration of which shall be authorized by the Appointing Authority, designed to demonstrate good health and physical fitness sufficient to perform the essential duties of the position, with or without accommodation.

Must be a current employee of the West Baton Rouge FPD #1 Fire Department.

Prior to the closing date for application to the board, must possess the following certifications:

- * Paramedic
- * Firefighter I in accordance with National Fire Protection Association (NFPA) standards

DIRECTOR OF ADMINISTRATION

(Competitive Class)

DISTINGUISHING FEATURES OF THE CLASS

This class encompasses a high-level administrative position with responsibility for assisting the Fire Chief in directing administrative functions of the fire department. The primary duties and responsibilities include managing the Administrative Division in areas such as planning and research, maintaining departmental records and reports, preparing the departmental budget, maintaining department supplies and equipment, and preparing payroll and billing documents. The Director of Administration supervises positions comprising the fire service support classifications in the Administrative Division in the absence of the Fire Chief. The employee of this class has the authority to work independently in most areas, and can perform routine tasks without supervision. The incumbent of this class reports to and has work reviewed by the Fire Chief.

EXAMPLES OF WORK

Examples listed below are illustrative only. They are not intended to include all duties which may be assigned, neither are they intended to exclude other duties which may be logical assignments to this class.

Assists the Fire Chief in the management of the administrative functions of the fire department. Recommends management policies, goals and objectives for consideration by the Fire Chief. Participates in the research and planning for programs and activities of the department. Assists the Fire chief in managing the accounting of funds and assets of the department. Assists in the preparation of the departmental operating budget by gathering information and compiling and organizing data to be used in preparing the department budget. Writes request for special funds to aid in the operation of the fire service. Provides assistance to the Fire Board of Commissioners and Fire Chief by researching laws and information needed for special projects and coordinating activities with other department heads.

Manages the operation of all divisions of the department with primary functions including clerical duties, accounting, or records-keeping. Prepares payroll records, takes complaints from employees about pay, and deals with payroll section errors, changes, and other matters related to payroll. Prepares and authorizes expenditure estimates and purchase requisitions according to departmental procedures, and gets estimates on repair costs for any assigned equipment. Purchases equipment and supplies, and locates and arranges for repair and maintenance services of all assigned equipment. Inspects equipment or property after repairs to ensure repairs were properly accomplished. Distributes supplies and equipment as required.

Receives department records and reports and checks them for completeness, accuracy, and conformity to established procedures. Types letters, forms, memos, statements, formal reports,

or any assigned documents. Reads graphs; charts; manuals; records; or related documents; and compiles and organizes data for reports. Composes business letters using correct grammar and punctuation. Prepares news releases or any other type of official department statement for publication. Operates a computer terminal, calculator or mathematical software, copying machine, and facsimile machine. Enters routine information in department records. Sets up filing system, and provides for the maintenance of all department records. Maintains a library or archives materials for future use by department personnel. Files correspondence, cards, forms, records, and reports in hard copy files or a computer database where they are organized numerically, chronologically, or by code. Locates and retrieves information or documents from hard copy files and computer files while performing appropriate back-up functions with computer files. Uses computer scanning equipment to enter records or documents into the database. Extracts information or summarizes contents of files for use by departmental personnel. Keeps record of material removed from files, and traces missing files. Fills out all forms or records required or assigned to this position and files them according to department procedures.

Provides assistance to chief officers of the department regarding the general care and maintenance of firefighting apparatus and equipment, communications or other specialized equipment, motor driven vehicles, stations and grounds, and other related property. Reviews request and makes arrangement for repairs and maintenance of facilities, equipment, or operating systems.

Inspects and evaluates the effectiveness of the Administrative Division and takes appropriate action to correct or improve problem areas. Participates as a member of the hiring committee, and making recommendations for hiring. Investigates complaints against the division personnel and formulates a recommendation for reply to the complaint or a recommendation for action to be taken as directed.

In the absence of the Fire Chief and as may be assigned, supervises positions comprising of fire service support classifications in the Administrative Division by assigning work or duty areas, assigning work schedules, approving leave, overseeing and evaluating the work performance of subordinates, reviewing reports written by subordinates, writing evaluation reports and discussing work performance with subordinates. Provides assistance to subordinates in technical areas of work. Recommends disciplinary action against subordinates. Counsels subordinates who are experiencing work problems and resolves employee grievances.

Assists at the fire scene by acting as a liaison between the Incident Command and private contractors as needed by handling status board, calling for assistance, and relaying necessary information. Provides logistical support for supplies and equipment in handling emergencies involving hazardous materials. Keeps informed on modern firefighting methods and administrative practices. Studies new laws, regulations, ordinances and court rulings relating to fire department operations. Recommends changes in department operations that will help the parish to obtain favorable ISO Ratings. Recommends additions to or changes in fire prevention codes.

Schedules appointments and keeps records of meetings and other events for the fire department. Places telephone calls for the department and answers any calls coming in on assigned lines. Opens, sorts, and distributes incoming mail to the proper person, section, or office. Stamps material to record date and/or time that the material was received. Processes outgoing mail and interdepartmental correspondence. Acts as a receptionist to visitors, screens them to determine their business, and directs them to appropriate individuals or offices. Answers questions and handles any routine requests by visitors to the office. Responds to any routine correspondence or requests on own initiative following departmental procedures. Takes dictation and transcribes from notes. Takes minutes or notes at meetings.

Keeps promotional eligibility lists, and maintains roster of department personnel including names, addresses, telephone numbers, and other pertinent information. Provides informal or on-the-job training, and serves as instructor for training related to secretarial or clerical functions. Meets with the Fire Chief and department personnel to determine department objectives and to ensure employee needs are being met by the administration. Operates department motor pool vehicles to accomplish day-to-day tasks.

Performs any related duties assigned.

QUALIFICATION REQUIREMENTS

Unless otherwise specified, all requirements listed below must be met by the filing deadline for application for admission to the examination.

Must meet all requirements of the Municipal Fire and Police Civil Service Law, including being a citizen of the United States and of legal age.

After offer of employment, but before beginning work in this class, must pass a physical examination, the selection and administration of which shall be authorized by the Appointing Authority, designed to demonstrate good health and physical fitness sufficient to perform the essential duties of the position, with or without accommodation.

Must not be less than twenty-one (21) years of age.

Must possess a valid driver's license.

MUST MEET ONE OF THE FOLLOWING TWO QUALIFICATIONS:

Must have a bachelor's degree in fire science, fire administration, public administration, or other related curriculum and at least four (4) years of experience in fire service positions, at least two (2) years of which must have been in positions which include administrative or supervisory

responsibilities. Fire service experience must include full time experience in fire suppression and rescue, and may include work in positions which would provide background in fire prevention and investigation, fire training and related areas of fire department operations and management.

OR

Must have an associate degree in fire science, fire administration, or other related curriculum, or a bachelor's degree in an unrelated curriculum and at least six (6) years of experience in fire service positions, at least two (2) of which must have been in positions which include administrative or supervisory responsibilities. Fire service experience must include full time experience in fire suppression and rescue, and may include work in positions which would provide background in fire prevention and investigation, fire training, and related areas of fire department operations and management.
